

Requirements for Dodecagon quilt.

Dodecagons

I made this quilt using papers. Papers for approximately 40 Dodecagons are required. Papers can be ordered in the USA Europe and the UK from Paperpieces in the States. Papers are available through quilt stores in Australia from Imprezzio. Imprezzio is a wholesale business only so ask your store to order them for you. Templates are also available from the suppliers above You need them.

Hexagons

Approximately 400 hexagons required.

Fabrics

This quilt is a scrappy quilt so Bring small amounts of lots of fabrics!
Include lots of small and medium geometrics and plaids and stripes if using my sample as a guide
Approximately half of the hexagons have been fussy cut so you may want to do that too.

Border fabric

Allow 1.5 metres (or 1 1/2 yards.)

**** workshop is for hand piecing students.... Machines are not required, nor large cutting mats.

See General Requirements list for notions etc.
